

# Package ‘gghist’

May 8, 2026

**Title** Plot the Histogram of a Numeric Vector

**Version** 0.1.0

**Description** Wrapper around `geom_histogram()` of 'ggplot2' to plot the histogram of a numeric vector. This is especially useful, since `qplot()` was deprecated in 'ggplot2' 3.4.0.

`gghist`*Plot the histogram of a numeric vector*

---

**Description**

This is a wrapper around `ggplot2::geom_histogram()` to display the histogram of a numeric vector

**Usage**

```
gghist(x, ...)
```

**Arguments**

<code>x</code>	A numeric vector
<code>...</code>	Other arguments passed on to <code>geom_histogram()</code>

**Value**

A ggplot object

**Examples**

```
x <- rnorm(100)
gghist(x, bins = 20)
```
